June 2009 Newsletter

Adesys is Growing!

Adesys has recently added an additional associate to the team. Jared Stange is a recent graduate of UW-Whitewater and started with Adesys in March of this year to increase the size of our support group. He will be working closely with Jesse Joswick and Philip Smith to handle help desk functions as well as on-site service and support.

In the Community

Adesys just finished the redesign of the Jodi Lou Lung Cancer Foundation web site. Please join us in taking part in the Run/Walk in Fitchburg on June 6th.

The Jodi Lou Lung Cancer Foundation was created by Jodi Lou Rickert for the purpose of supporting lung cancer research at the UW Paul P. Carbone Comprehensive Cancer Center. The goal is to get the clinical trial medication from the researcher in the lab to the patient's bedside. All proceeds go to the "Creating Hope" Fundraising Campaign and are matched dollar for dollar by the State of Wisconsin. It was Jodi's wish to help avoid one more parent having to say goodbye to their child.

A Reminder of What We Do

Adesys provides low-cost high-tech, high quality products and services to companies. We help small businesses maintain their technological edge and maintain their competitive edge without investing heavily in on-site staff.

At Adesys, We're On It

Adesys understands the high demand for great IT service and products. We also understand the need to work within tight budgets and find cost efficient and effective solutions in today's economic environment.

If you have a business associate that you think would benefit from a partnership with Adesys, please introduce them to us.

To learn more about Adesys or discuss future IT needs or projects please contact Jason Adamany at jason@adesys.com or at 608-288-0100 x105.
